Thermodynamics

Subject: Physics | NoteShare Library

THERMODYNAMICS

1. FIRST LAW

Processes:

Isochoric: W = 0

2. HEAT

Cp - Cv = R

3. SECOND LAW

Kelvin-Planck, Clausius

4. CARNOT

5. KINETIC THEORY
PV = nRT

KE_avg = (3/2)kT

6. HEAT TRANSFER

7. PHASE CHANGES
Q = mL
Water: L_f = 334 kJ/kg
L_v = 2260 kJ/kg
