OPTICS

1. REFLECTION
Angle i = angle r
Plane mirror
Spherical mirrors
Mirror formula: 1/f = 1/v + 1/u
Magnification: m = -v/u

2. REFRACTION

Refractive index: n = c/v

Total internal reflection

3. LENSES
1/f = 1/v - 1/u
m = v/u
Power: P = 1/f (diopters)

4. WAVE OPTICS
Interference:
Young’s double slit

Diffraction:

5. POLARIZATION

6. DISPERSION
Prism, rainbow
Violet bends most
