Fluid Mechanics

Subject: Physics | NoteShare Library

FLUID MECHANICS

1. PRESSURE
P = F/A
Pascal: 1 Pa = 1 N/m

2. PASCAL’S LAW
Pressure transmitted equally
Hydraulic lift

3. ARCHIMEDES

4. CONTINUITY

5. BERNOULLI

Applications:
Airplane wings
Venturi meter
Pitot tube
Atomizer

6. VISCOSITY

Re < 2000: laminar
Re > 4000: turbulent

7. SURFACE TENSION
